17.

DEFERMENT OF OPERATING REQUIREMENTS, MINERAL EXTRACTION LEASE P.R.C. 2094.1, SAN DIEGO GAS & ELECTRIC COMPANY, TIDE AND SUBMERGED LANDS, SAN DIEGO BAY, SAN DIEGO COUNTY - W.O. 3434.

Mineral Extraction Lease P.R.C. 2094.1 was issued on March 10, 1958, in accordance with Division 6 of the Public Resources Code, to the San Diego Gas & Electric Company. The lease requires an advance annual rental of \$225.78 and the completion of 100 shifts of work during each year of the lease term. The work requirements for the initial lease year ending March 9, 1959 were fulfilled. During the initial lease year, the lessee extracted a total of 831,997 cubic yards of sand, gravel and fill material. This resulted in a royalty payment to the State in the amount of \$24,959.91.

A request has been received from the San Diego Gas & Electric Company for a deferment of operating requirements for the lease year ending March 9, 1960. The lessee states that dredging operations required in the construction of the South Bay Generating Station are now completed; therefore, any further dredging of material under this lease is not contemplated at the present time. However, it is anticipated that additional plant construction, requiring further extraction from the leased area, will be necessary within a two-or three-year period, and it is desired that the lease continue to remain in effect.

IT IS RECOMMENDED THAT THE COMMISSION AUTHORIZE THE EXECUTIVE OFFICER TO GRANT TO SAN DIEGO GAS & ELECTRIC COMPANY A DEFERMENT OF THE OPERATING REQUIREMENTS SPECIFIED IN SECTION 10 OF MINERAL EXTRACTION LEASE P.R.C. 2094.1 FOR THE LEASE YEAR ENDING MARCH 9, 1960, ALL OTHER TERMS, CONDITIONS AND PERFORMANCE REQUIREMENTS UNDER THE LEASE TO REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
